

Server and Website Monitoring

The Covell Group is here to help keep your business up and running with 24/7 monitoring. **Our monitoring is very cost effective** with most monitoring services costing up to ten times, as much!

Monitoring includes:

Advanced Web interface

iPhone Application

Windows GUI

99.9% + uptime

Multiple alerting options and scheduling

Hosted in a Tier 1 Data Center

Remote probes that work transparently through firewalls

Up to 365 days of historical data stored

Custom reporting and report scheduling

Discounts on all Covell Group labor rates

And More!

We can monitor services externally, as well as monitor internal services, including:

- HTTP (Web)
- Mail
- Disk Space
- Windows Services
- Transaction Web (shopping carts)
- FTP
- Databases (SQL, MySQL, Oracle SQL)
- SNMP Sensors, any MIB
- Traffic statistics
- Windows Management Interface WMI
- VMWare
- Customer scripts and much more

Give us a call at **858-518-0997** or email at contact@covellgroup.com

Not all pricing and options are shown, contact for more information

Our domain expired and was promptly noted by your Monitoring Service and resolved before the next working day, meaning that the tremendous disruption of being without our company email the following day was avoided. It is extremely reassuring to know that your Monitoring Service is able to support our company and avoid unanticipated service disruptions like this.

- Bob Jetland, President/Owner, Pacific Imaging and Treatment Center

Networking Monitoring is critical part of every business. The real-time monitoring and notifications of our network allow us to provide quality service to our customers. In this regard the Covell Group provides us with a great service and peace of mind.

- George Martinez, VP of Operations, ERISS Corporation

Monitoring Package **Starter** (5 service pack)

This package provides our monitoring service for your business with monitoring for up to 5 services. We are able to monitor your email server, web site, and even your Internet connection. If any of these services are down for more than a few minutes, then alerts will be sent to our technical staff and up to 3 of your email addresses, pagers, or cell phones. If you chose, we will even call you and setup an appointment to address the outage at a discounted labor rate.

This package is **\$45** a month and includes:

- 24/7 monitoring of servers and Internet connection (includes 5 monitored services).
- Additional monitored services are only \$7 more a month.
- Real-time and monthly reporting for all monitored services.

Monitoring Package **Plus** (10 service pack)

This package provides our monitoring service for your business with monitoring for up to 10 services. We are able to monitor your email server, web site, and even your Internet connection. If any of these services are down for more than a few minutes, then alerts will be sent to our technical staff and up to 3 of your email addresses, pagers, or cell phones. If you chose, we will even call you and setup an appointment to address the outage at a discounted labor rate.

This package is **\$65** a month and includes:

- 24/7 monitoring of servers and Internet connection (includes 10 monitored services).
- Additional monitored services are only \$6 more a month.
- Real-time and monthly reporting for all monitored services.

Monitoring Package **Pro** (20 service pack)

This package provides our monitoring service for your business with monitoring for up to 20 services. We are able to monitor your email server, web site, and even your Internet connection. If any of these services are down for more than a few minutes, then alerts will be sent to our technical staff and up to 5 of your email addresses, pagers, or cell phones. If you chose, we will even call you and setup an appointment to address the outage at a discounted labor rate.

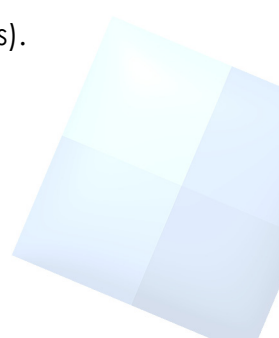

This package is **\$95** a month and includes:

- 24/7 monitoring of servers and Internet connection (includes 20 monitored services).
- Additional monitored services are only \$5 more a month.
- Real-time and monthly reporting for all monitored services.

Additional Pricing information

Pricing for all monitoring packages is based on 10 minute intervals for each service. For shorter scanning intervals there is an additional monthly fee as shown below.

Additional fee per month	Scanning Interval
\$1	5 min
\$3	1 min
\$5	30 sec
\$10	5 sec

Discount pricing for quantities above 50 services are as follows.

- 50 + services = \$4 per service
- 100 + services = \$3 per service
- 200 + service = \$2.50 per service

Email alerts are included at no additional cost. No limitation to how many email alerts are sent.

24/7 personal phone response is available at an additional \$250 a month. This service will provide you and/or whatever contacts you provide a personal phone call with detailed information on the alarm.

Invoicing is sent on the 1st of every month with NET 15 terms. All billing is month to month, there are no contracts or penalties for termination. The first month is prorated, upon termination there is no prorating and the final month must be paid in full.
