Offsite Data Protection

The Covell Group is pleased to offer offsite data protection to keep your data safe in the event of theft, fire, catastrophic system failures, or natural disasters. Data is one of the most valuable assets your company owns and now it is so easy to have a copy of it physically offsite.

All data is transmitted over your existing high speed Internet connection using intelligent compression to dramatically reduce the time it takes to transmit data. This saves both time and bandwidth for nightly or even hourly backups. Backups run by default every 30 minutes and will even backup open files as well as keep multiple revisions of files.

This service is great for business, home business, laptops, and every computer you own! You can login anytime to restore your own files or have us help you.

Offsite Data Protection Pricing

No setup fees and the first month is free! The service is month to month and you may cancel at any time.

The pricing table below shows sample points; for a full list please contact us.

Standard Offsite			
Gigabytes Used	Monthly Fee	Gigabytes Used	Monthly Fee
1 GB	\$8	75 GB	\$86
2 GB	\$9	100 GB	\$97
5 GB	\$12	150 GB	\$142
10 GB	\$16	200 GB	\$187
20 GB	\$25	250 GB	\$232
50 GB	\$52	300 GB	\$277

All fees are calculated and charged monthly based on usage at the end of each month rounded up to the nearest Gigabyte. The customer must have a high speed Internet connection that is on all the time. The customer must provide a Windows based PC or MAC to run synchronizing services. Monthly billing will begin on the second full month of service. Service is month to month and can be canceled at anytime. Canceled accounts will have all backup data removed from Covell Group systems immediately upon termination. Past due payments may result in termination of service and removal of files from our storage systems. This service is not a primary backup replacement and we cannot guarantee data recovery.
